

Expression of Interest

Partnership between
Humanitäre Hilfe e.V. (Humanitarian Aid, Reg. Charity), Klinikum Landsberg am Lech
(Clinical Center Landsberg am Lech, District Hospital of Landsberg am Lech) and
District Hospital Tellippalai

The Ministry of Health and Nutrition of Sri Lanka, Humanitäre Hilfe e.V. and the Klinikum Landsberg am Lech have agreed on establishing a long term partnership between the Klinikum Landsberg am Lech (Germany) and District Hospital Tellippalai (Sri Lanka).

Regarding the common intention of helping people in need, the partnership should encourage close cooperation between both hospitals. The cooperation will focus on the sectors of training, knowledge exchange and improvement of medical infrastructure. Therefore the Ministry of Health and Nutrition of Sri Lanka will facilitate issuing working permits for medical staff from Landsberg, facilitate measures to provide the team members of Landsberg with visas and facilitate to arrange VAT exemptions for the importation of medical items.

As access and communication to the Tellippalai Hospital might be temporarily restricted, Humanitäre Hilfe e.V., Klinikum Landsberg am Lech and the Ministry of Health and Nutrition agree on an extension of their cooperation to the Base Hospital Point Pedro.

In closing, we would like to record our pleasure about this partnership and express our intention to take the responsibilities necessary for trustful relations between the involved people. We look forward to a successful and fruitful collaboration.
